

BARRINGTON TOWN MANAGER'S WEEKLY UPDATE

Dear Barrington Residents, Businesses, and Community Partners,

I hope you are doing well and staying safe!

Rhode Island's COVID-19 positivity rate has decreased again this week to 5.0% with 829 cases reported yesterday. Barrington's positivity rate remains at 5.0%.

Residents efforts to keep their groups small and our efforts to increase testing are working to reduce cases and quickly identifying positives. Our local rapid testing site has been a great resource testing hundreds of people. **Testing has been extended for the next two weeks.** Please continue to keep vigilant.

COVID-19 Testing

We are happy to have a pop-up rapid **asymptomatic** testing site at the former Joseph A. Bank storefront in the Barrington Shopping Center. Appointments are not necessary.

- Tuesday through Saturday, 9am to 5pm.
- Jan. 19th-23rd
- Jan. 26th-30th
- Feb. 2nd-6th

We owe a special thank you to Joe Paolino and Paolino Properties, the RI Department of Health and the RI National Guard for supporting this community effort.

RHODE
ISLAND

COVID-19 Vaccine

Rhode Island is currently in Phase 1 of vaccine distribution, which focuses on healthcare workers and those over 75 years of age. Vaccinations have already begun for the first three sub-groups included in Phase 1 (see image below). Please note that there is no action that outpatient providers, adults over 75 years of age, or others for whom vaccination has not yet begun need to take at this time to get a vaccine. Decisions have not been made about any other phases of vaccine distribution.

To date: 66,070 doses administered (52,925 first doses, 13,145 second doses)

For more information visit: <https://covid.ri.gov/vaccination>

WHO can get vaccinated in PHASE 1 of Rhode Island's COVID-19 Vaccination Program?

Phase 1 Timeline	
E Q U I T Y	 Hospital Staff, EMS, Home Health and Hospice Workers, Nursing Home Staff and Residents Started December 14 Started vaccinating first dose and second dose
